Subject: SJRWP Superfund Site- 2/24/15 HCA letter

Donn, Gary,

The Harris County Attorney's Office sent the attached letter (and attachment-7/15/14 EPA letter) to Anne Foster this afternoon. The letter discusses concerns with using the existing ground water data set as a determinant in the selection of a final site remedy and requests additional evaluation of the ground water data as well as additional well installation and well sampling.

See you all tomorrow, I'll have the coffee ready...Bob
